INCLUSIONS

DWYER
QUALITY HOMES

Building dreams since 1985

GENERAL

- + Soil test of your land and Engineer's design of foundations to suit.
- + Contour survey of the land up to 800m² lot.
- + Surveyor setting out of the house.
- + Temporary underground power box set up for house construction. Excludes Energex connection and consumption costs. Connection is in owner's name.
- + On site sanitation for the duration of the construction.
- + Concrete pumping for footings if required.
- + Concrete pumping for slab if required.
- + Crane hire for lifting materials if required.
- + Sediment control fence and rock driveway for standard lot.
- + Temporary site fencing around perimeter of lot if required.
- + 6 Star Energy Efficiency assessment achieved as a minimum on standard designs.
- + Site levelling up to 0.5m and clearing of light grass not including removal or dumping.
- + Engineered slab and footings for a "S" soil classification on a flat unfilled site.
- + Penetrations within the slab area are to have "physical" termite barriers installed.
- + Insurances included of BSA, and builders all risk, and Qleave.

EXTERNAL

- + External brickwork - PGH Lifestyle, Impressions, Hinterland, Horizons and Natural ranges with natural mortar.
- + Termite resistant non-toxic treated renewable plantation timber is used for all wall frames.
- + Frames are made in a factory using precision equipment. Stud spacing is no more than 600mm.
- + Termite resistant non-toxic treated renewable plantation timber is used on the trusses.
- + Trusses are engineered and factory prefabricated.
- + The standard roof pitch is 21 degrees.
- + The standard ceiling height is 2.4m.
- + The standard ceiling is flat lined on the underside with plaster board.

DOORS & STAINS

- + Front Door is Corinthian Blonde Oak AWO 5GL with translucent glass
- + Gainsborough Ambassador front door lock.
- + Flush hardboard swing doors painted, or mirror sliders where shown on plan.
